ABRASIVE INNOVATION

**SANDMASTER**

# The world's leading independent manufacturer and supplier of abrasive products

Sandmaster, based in the UK, are the world's leading independent manufacturer of foam-based abrasives. Sandmaster operates from a production facility of 250,000 square ft. based in Hixon, Staffordshire.

## **Commitment/Customer Service**

Clients have a key contact within the business responsible for smooth processing of orders to the point of timely delivery.

## **Quality Assurance**

Quality control is paramount at every stage of the process from raw materials to each finished product inspected prior to leaving site.

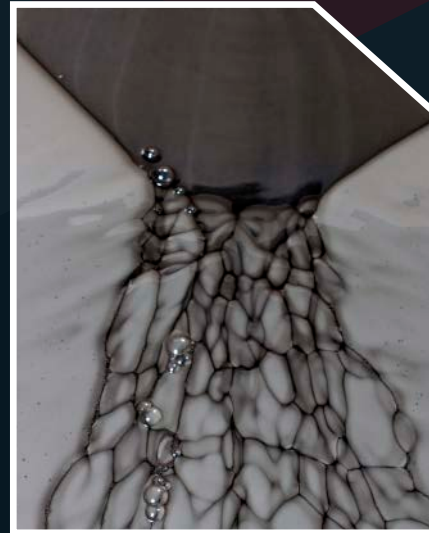

## **Environmentally Responsible**

Sandmaster actively make sure any waste materials used in production are recycled.

## **Delivery network**

A trusted supply network that can be relied on to deliver products effectively and efficiently to any location in the world.

SANDMASTER

# Innovation through research and development

The leaders when it comes to innovation and development, Sandmaster are experts in their field and therefore, have extensive knowledge of technological and product development in the current foam-based abrasives market.

Due to this, the company is ever-changing and growing, now with two laboratories on-site.

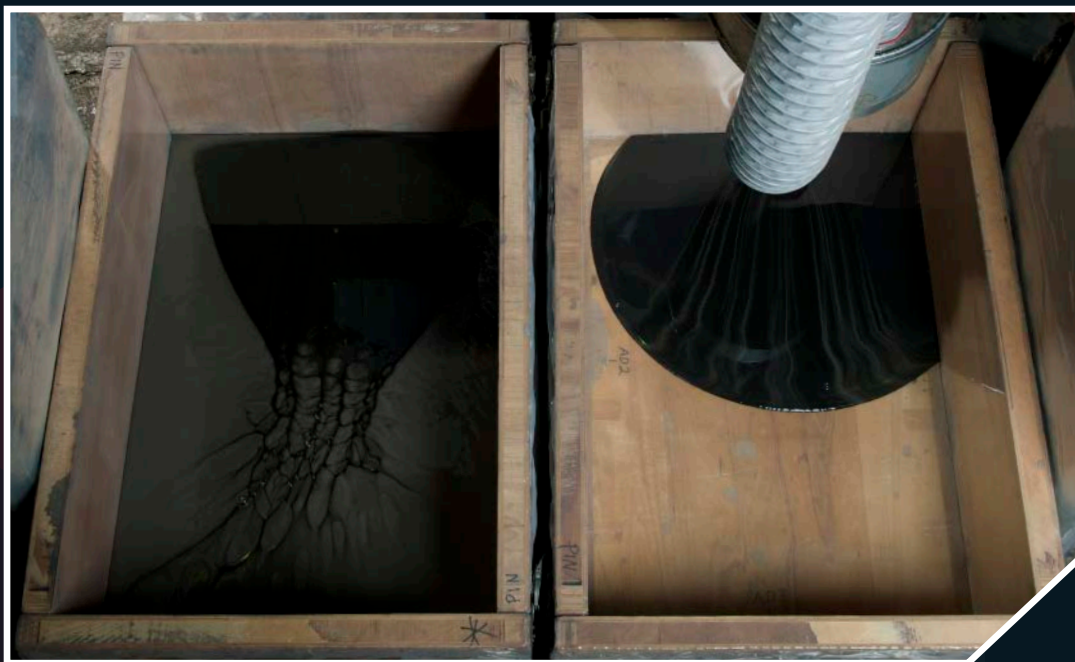

**SANDMASTER**

# In-house foam production

Sandmaster is renowned for their full range of foam products; their unique foam formulations are held in high esteem across the industry. The quality of their foam is second to none.

All raw material deliveries and production batches are tested to meet rigid quality controls before being passed for use within their abrasive products.

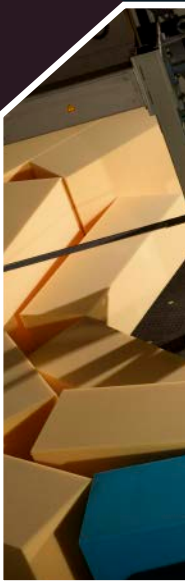

**SANDMASTER**

# Cutting Edge Manufacturing Capabilities

By controlling their entire manufacturing process, Sandmaster can always offer their customers something that little bit different, tailored to their needs.

- Foam cores in different sizes, shapes and colours
- Bespoke packaging with customer's own branding
- Screen printing of logos
- Complete range of aluminium oxide or silicon carbide minerals
- Open and closed cell foam formulations available

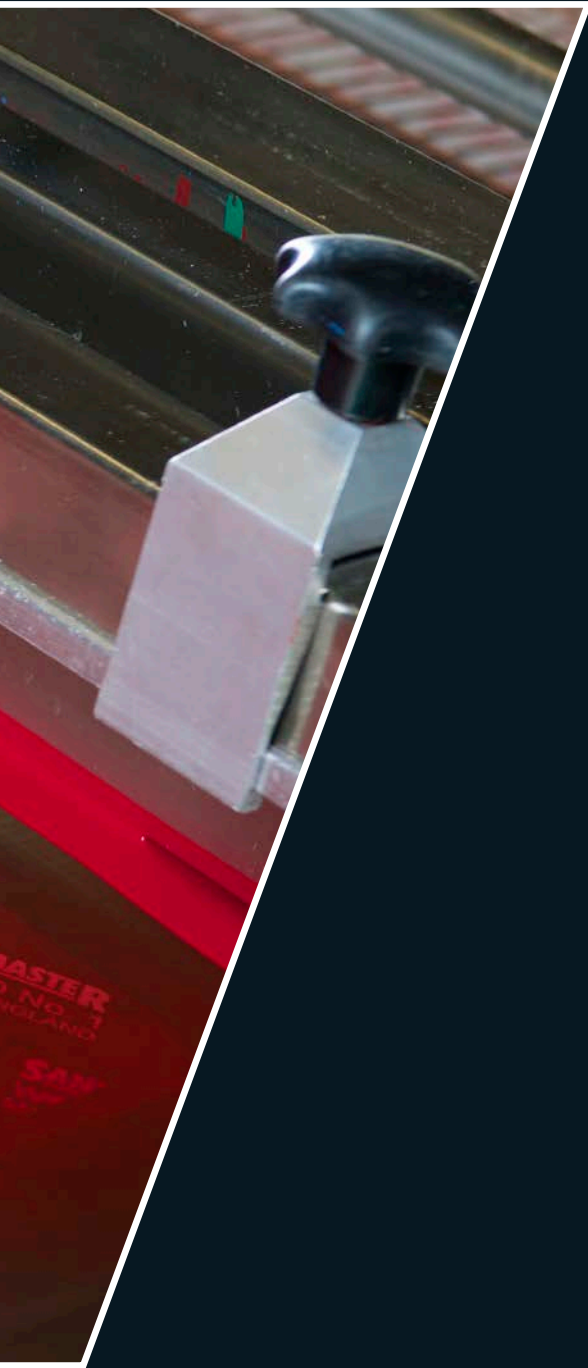

**SANDMASTER**

# Bespoke branding & packaging

Whatever the customer's product need, Sandmaster can provide a bespoke option. Coloured minerals and foams, different shapes and sizes, unique formulas, screen and inkjet printing.

From in-store display cartons and cards, to promotional shrink wrap packs, Sandmaster are geared up to meet your branding and labelling requirements. You specify the configuration you need.

# SANDMASTER

## Abrasive products for every requirement
